### *The Red Smiles*

CPYRGHT

Allen Dulles, head of the U. S. Central Intelligence Agency, stated recently that he can see no change or slackening in the campaign of subversion waged by the Reds. The same relentless prosecution of Red aims is evident in China, East Germany and the satellite countries.

This is the real test of Red intentions. The smirk and smile adopted at Geneva, which captivates the fatuous, is no proof that they are not pushing their villainous campaign against liberty and religion.

In fact, the arrest of the Chinese-born Bishop of Shanghai with more than 500 Catholic priests and laymen is evidence of the same devilish intentions of the Reds. The "charges" brought against the Bishop, as published in the newspapers in Shanghai, reveal the criminal nature of the Red regime, for instance, operating "islands of freedom," advising Catholics not to accuse landlords during public trials, celebrating Mass for those arrested in Red purges. In short, the Bishop is jailed for being a charitable, freedom-loving Christian.

The Secretary of State should remember these facts and the words of his brother as he prepares for the coming conference.
